Description

A modular bakery retail outlet is assembled from 3 StandardLine modules and also serves, in part, as auxiliary rooms for security guards.

The modular building is fitted with thermal insulation and plastering partially sandwiched in Thermowood wooden facing. There are plastic shop windows in the shop.

The interior walls are made from gypsum plasterboard with white paint, and the floor is covered with PVC. It is heated with electric heaters.

The installation included a glass porch on the front side.
