Equipment	Sectional garage door, internal side-bracket enamel staircase with checkered plate steps

Description

A nearly 200m² two-storey building by a German artist is assembled from 11 StandardLine modules. There is a showroom, a storeroom and auxiliary rooms on the ground floor. On the 1st floor, there is a spacious office with a terrace. The entry to the 1st floor is accessible by a side-bracket staircase with checkered plate steps.

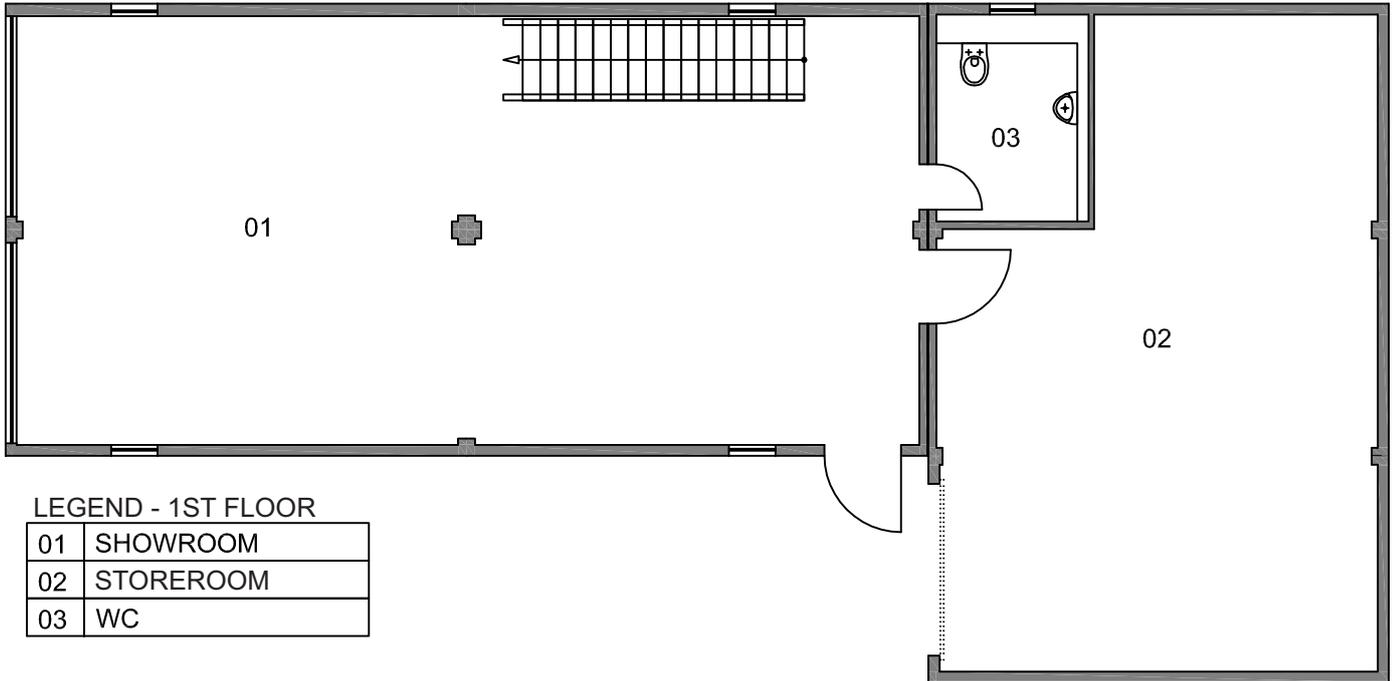

The facade is made from standard corrugated sheets, the top floor is supported by a traverse. Display windows across the front side of the building illuminate the showroom and office spaces very nicely.

There is an entry to the spacious wooden terrace accessible from the office on the 1st floor.
