Description

A Hornet Car Glass service outlet is located in the shopping centre parking lot so the customers can have their cars serviced while doing some shopping. It consists of one module and, if need be, it can be easily moved to another location.

The service centre facade is a combination of PUR panels and glass channel and there is structural corner glazing with a door in the office. The entrance to the garage is a sectional door. The office is separated from the garage by a glass partition with a sliding door.

Hornet Car Glass
